Dear Patient,

I would like to begin by thanking you for trusting myself and my team for looking after your oral health. Some of my relationships with patients and staff have continued for almost 30 years and for this I am grateful. I would like to announce a few changes at Bridgenorth Dental Clinic. I am excited to announce that Dr. Ryan Whyte has joined our team. Ryan was raised in Stirling, Ontario and obtained his Doctor of Dental Surgery degree from the University of Melbourne. He has joined my practice part time and continues to practice at his other office in Belleville.

We will treat patients collectively. Ryan will see new patients and emergencies. I think you will find Ryan similar to myself, despite our age difference, he has a relaxed demeanor and conservative treatment approach. I have been practicing dentistry for 30 years and I have no intentions of retiring in the near future.

Another announcement regards the hygiene department. Two of my hygienists (Kathy and Aimee) are moving on to other professions and you will see less and less of them. There is currently a shortage of hygienists in Ontario, and I am having difficulty finding other hygienists to fill their shoes. As a result you may find it will take a little longer to get a hygiene appointment. I ask you to be patient as I try to resolve this staffing shortage.

My staff and I are committed to provide you with the best of oral care. If you have any questions, concerns or complaints, please feel free to contact me directly. My cell phone number is on my business card for that reason.

Sincerely,

Dr. John Lyne
